

[My points 1.0 Release Candidate](#)

Category : [My Points](#)

Published by trabis on 2009/6/5

My points is Xoops module that allows administrators to give points to his site members for each submission or vote. Easy pluginable!

Demo here:

<http://www.xuups.com/modules/mypoints/>

And here(after login):

<http://www.xuups.com/modules/mypoints/mypoints.php>

Features :

- display an ordered list of your top members
- display points for a given user
- etc

Changelog :

- Fixed : Points were not auto updating
- Added : Plugin for publisher module

Module runs on Xoops and Icms under php4 or +
